

**2 EZBook Desktop Plan** Choose EZBook Desktop if your school has one or more users who want to work on their pages independently (for maximum speed and performance) and have their pages merged together to create one book file for submission. All EZBook Desktop pages are submitted via CD/DVD or Flash drive. See [www.ezbook.net](http://www.ezbook.net) for more information.

- Use two-page spread backgrounds, including a photo placed as a two-page background
- Position image anywhere within the picture box
- Create and save your own page templates
- Place photos and other elements across gutters
- Resize, rotate, crop and frame photos
- Automatically flow multiple portrait pages
- Flow the same portrait multiple times, if needed
- Spell check
- Place and see spine text on hard cover books
- Use drop shadows to add more dimension
- Crop photos in ovals, circles, stars and more
- View two facing pages at once
- Import photos from a variety of sources

**3 EZBook Online Plan** Choose EZBook Online if your school has multiple users who want to work on a shared book and see each other's work as they go. All EZBook Online pages are submitted directly through the Internet. Check it out at [www.ezbook.net](http://www.ezbook.net)!

## BENEFITS OF EZBOOK ONLINE

- Multiple users can work on the same book and see their changes in real time.
- Individual users can have as little—or as much—access to pages as the adviser wishes
- A school's book is stored on our servers—no storage or files to manage.
- There are no files, CDs or forms to mail in when the book is ready to be published.

### EZBook System Requirements:

**PC** - Windows XP, Vista or Windows 7 **Mac** - OSX 10.4 or later AND Java 1.5 or later

#### Minimum Hardware:
